New Delhi, India – Innovative Lighting Design Limited (ILDL) recently introduced a range of their newly launched decorative lighting products by Brokis and architectural lighting products by Folio, designed to illuminate the world and transform environments #OneLightAtATime.

A Czech premium lighting brand, Brokis stands for the synthesis of exquisite design, superior quality, and the remarkable craftsmanship of Bohemian glass artisans. Folio luminous products, on the other hand, are enhanced by continuous technological research that provides incredible lighting power, very low consumption, and unprecedented uniformity of light distribution in just a few millimetres of thickness.

“We all seek light in our lives – the light of love, hope, and faith. Whether decorative or ambient, light has the power to transform a space and evoke happiness, comfort, wellness and luxury. With each design, we aim to metamorphose spaces and celebrate the dynamism of light,” said Vikram Jain.

Esteemed guests from the Czech Embassy (Kateřina Petersen, Deputy Chief of Mission and PhDr. Eliška Žigová, Ambassador of the Czech Republic to India) and Italian Embassy (Francesco Varriale, First Counsellor, Davide Colombo, First Secretary and Ms Anastasia Bocchi) visited to inaugurate.
