## STUDIO B ARCHITECTS

PRESENTS PARISIAN-INSPIRED FRENCH HOME

We aimed to blend the timeless grace of French architecture with modern comforts, creating a home that feels both classic and inviting."—Anil Badan, Founder & Principal Architect, Studio B Architects.

spots highlight important furniture pieces with flair and precision.

A soft, inviting glow with a warm 3000K colour temperature fills the house, giving it an air of cosiness and elegance. The subtle Dotspot downlights offer ambient, well-balanced general lighting, while the elegant Molto Luce Blindspots preserve a clean aesthetic by blending into the ceiling with their small aperture size.

make a person's dream come true. Undoubtedly, ILDL has enhanced the residence's distinct character and illuminated it by carefully choosing top brands like Exenia, Molto Luce, Dotspot, Foli, and Litolux, resulting in an elegantly designed area. 🏡

# Creative lighting ideas redefine a luxury home

*"At ILDL, we use lighting to enhance a space's appearance and functionality. This project perfectly exemplifies our dedication to designing bright, customised spaces that showcase every little element." — Innovative Design Group.*

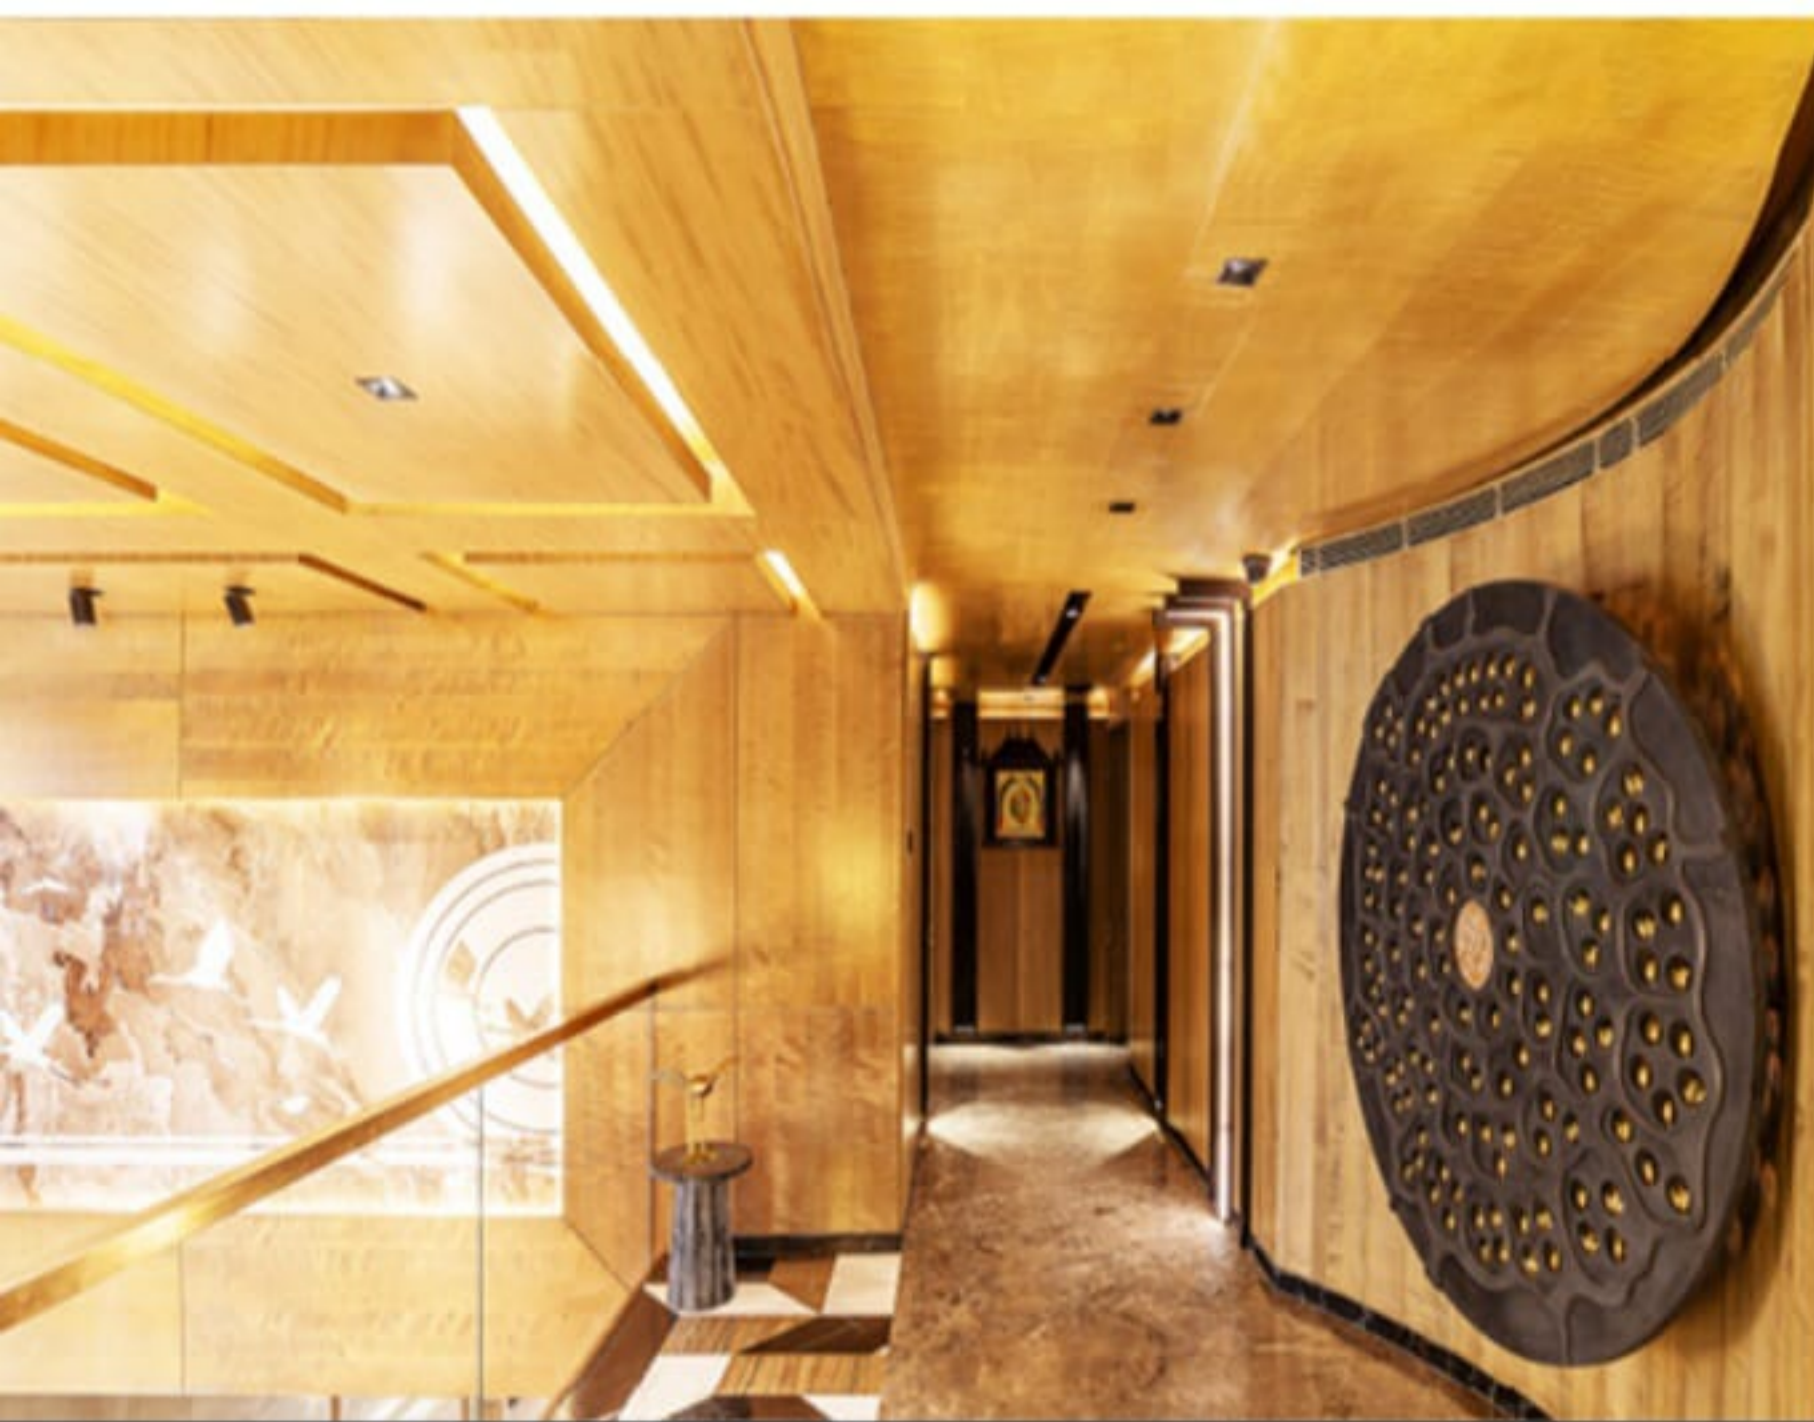

**I**LDL's newest residential project, a private home that redefines luxury with outstanding lighting, is a perfect example of our dedication to reimagining environments. We create

an ambience that elevates each room's aesthetics and enhances its practicality.

The house is a living testament to the creative power of lighting. Each

well-chosen lighting fixture enhances the space and how furniture and art interact. Narrow-beam optics highlight fine details and textures in the artwork, while carefully positioned track

The hardwood ceilings complement the sophisticated recessed black downlights, unifying the entire décor. Foli's fibre optics transform the home theatre into a haven with their captivating starry sky appearance.

This project perfectly exemplifies ILDL's proficiency with cutting-edge lighting technologies and unmatched capacity to
